

THE GOOD LUCK BULLETIN

WHAT IS LIFE?

Life is a precious gift. It must be handled with care. Life has been bestowed upon us by the almighty and we all must value it. We should be thankful for all that we have and try to improve ourselves each day to build a better life. Technically, Life is associated with feelings, growth and evolution.

Challenges are a part of life. We face different challenges at different points in life. While some people look at these challenges as an opportunity to learn something new others get disheartened and succumb to them. We learn many new things as we take on different challenges. These experiences make us a better person. We can overcome many challenges by setting goals. Goals give us the determination to achieve despite the hurdles.

Good luck school gives a holistic development to all our kids,so that they would face all the challenges in life.
